2 Release Notes

There was a minor release of the ISWC database software deployed on Tue, 12th Jan, @10:30AM CET . The expected service interruption for the production release was less than thirty minutes.

The purpose of this release is to fix a recent performance degradation that has become apparent since late Dec 2020. It also contains the up-to-date publisher allocation service fixes and enhancements along with miscellaneous minor bug fixes.

2.1. Communication

These release notes are now finalised. A copy of these release notes will be emailed to all email addresses that have an active subscription to the REST API in production as follows:
